RENEWED POSTPONEMENT – Update on the 24th Annual International Conference GeoTop 2021

of the section Geotopes and Geoparks of the German Geological Society -
Geological Association e.V. (DGGV)

**under the patronage of the Hessian Minister for Science and Art,
Mrs. Angela Dorn,**

originally from
Thursday, 27th until Sunday, 30th of May 2021
in Schotten/Hesse (Vogelsberg district)

Host:

Volcanic Region Vogelsberg National Geopark

The GeoTop 2021 must be postponed again due to the current Corona situation and the presently unforeseeable conditions for indoor events. Infection control and duty of care to all participants are paramount. For these reasons, the DGGV and the Volcanic Region Vogelsberg National Geopark have decided to move the annual conference to **autumn 2021** as a face-to-face event. The GeoTop thrives on personal exchange, exciting lectures on site and informative excursions to the respective region.

An alternative date has been found - the event is planned to be carried out from

Thursday, 7th to Sunday, 10th of October 2021.

Information on the AdG meeting, which usually takes place before the conference, and on the event itself will be sent out in due course. The Volcanic Region Vogelsberg hopes that the third attempt will be successful and that we will be able to warmly welcome you to the largest contiguous volcanic area in Central Europe. Until then, stay healthy!
